KICKOFF FRIDAY, MARCH 27 5:00 PM, CIF

- Kickoff Remarks and Introductions
 - Doug Simpson, Department of Statistics
 - J.D. Graham, Office of Data Science Research
 - Illinois Data Science Club
 - Health Analytics Society
- Sponsor: Databricks
- Sponsor: Amazon Web Services
- Sponsor: Synchrony - introduce project and deliverables
- Post-Presentation: Teams given access to Box data repository

SATURDAY, MARCH 28 – PROJECT DAY

- Location: Natural History Building, 1301 W. Green St, Urbana
 - Rooms 2020A/B, 2078, 2079, and The Core (3rd Floor)
- Activities 8:00 AM – 5:00 PM
 - Student workspaces + mentor office hours: Rooms 2020A/B & 2078
 - 9:00 AM – Coffee & bagels (Core, 3rd floor)
 - 12:00 PM – Lunch served (Core, 3rd floor)
 - 12:00 PM – Databricks Lunch & Learn (Room 2079)

SUNDAY, MARCH 29 – SUBMISSION DAY

- No in-person activities
- Office hours available via Discord/Teams
- **12:00 PM – Final submission deadline**
- **Submission details: See Synchrony Presentation**

Office of Data Science Research

We are your Data Science connection hub!

- Access to tools, data, resources
- Amplify your events and messages
- Showcase your achievements
- Link you to speakers and researchers
- Future: Illini Hall as a meeting space

ILLINOIS DATA SCIENCE CLUB

@uiucdsc on Instagram

OUR MISSION

Bringing together students of **all backgrounds** into the growing field of Data Science. We take pride in our diversity, with **40+ majors** representing **all levels of experience**.

Our Educational Workshops include a **ground-up** approach to learning the **data pipeline**, from machine setup to modeling. The Educational Team hosts **faculty talks**, where professors explore their research/industry experience with data science

Data Dive

Half-Semester-Long Data Dive period. Teams of 3-5 collaborate with a **Project Lead** to deliver valuable insights on data of **their choice**.

Teams present in the **Data Dive Showcase**, where **industry professionals** evaluate talent.

Hundreds of dollars in cash prizes!

What is HAS?

Why We Exist

Healthcare generates **30% of the world's data**, but most of it goes unused. HAS empowers students to use that data to **solve real medical problems**.

What We Do

Workshops

Learn through hands-on workshops that teach programming tools for solving healthcare problems.

Projects

Build real solutions by working in teams on healthcare analytics projects from health data.

Networking

Connect with professionals across healthcare, pharma, and data science through speakers and collaborations.

What We're Working On

Machine Learning Stroke Predictor

We're training a model that detects early signs of stroke using patient data.

Datathon mentors

- ▶ Eri Adepoju, Senior Scale Solution Engineer
- ▶ Simrah Fathima Shaik, Solutions Engineer
- ▶ Mofeed Nagib, Solutions Engineer
- ▶ Shrish Chaturvedi, Resident Solutions Architect
